Exciting Cutting Demonstration Set for June!

The sport of cutting originated from Western ranch work back when ranches were large and fences were few. When a cow needed doctoring, cowboys had to figure out how to separate the sick cow without upsetting the whole herd. Over time, this method of separating cows became a contest between cowboys and a quick horse with a "cowy" mentality. This special horse became a prized possession. Today the cutting horse competitions are a huge sport. And . . . you will see this exciting sport at the Empty Saddle Club on Thursday June 19th at 7:00pm. Don't miss it!

Charlene O'Neil, VP Education

"It's for you."
